

Innovative

Bio Solutions for
Sustainable Farming

PUSHPAK

Flower Enhancer

- Helps prevent bunch drop in grapes.
- Makes grape bunches strong and healthy.
- Promotes uniform, healthy and vigorous bunch development.
- Improves growth and better fruit setting.
- Reduces flower and fruit drop in pomegranate.

Dose :

2.0 to 2.5 ml per Liter of water

Gives a light shine on leaves after spray.

Packing :

250 ml, 500 ml, 1 Ltr

SHAKTI RUDRAKSH

Flower Enhancer

- When used with GA, improves shoulder spacing in grape bunches.
- Helps increase distance between berries.
- Supports uniform and balanced bunch development.
- Improves overall bunch size and shape.
- Helps in early and proper fruit setting.
- Results in healthy and attractive grape bunches.

Dose :

1.5 to 2 ml per Liter of water

Packing :

250 ml, 500 ml, 1 Ltr

CONTROL-40

Salt of Phosphinic acid

- Eradicates organisms causing Downy mildew and phytophthora.
- Control-40 used to develop internal resistance against Oomycetes fungi.
- It having systemic in action, ensures faster absorption.
- It is an aqueous formulation based on potassium salt of phosphonic acid.
- Working as disease suppressor with protective & curative actions.

Dose :

2.0 to 2.5 ml per Liter of water

Packing :

500 ml, 1 Ltr, 5 Ltr

Acomin+

P₂O₅

- It is an aqueous formulation based on potassium salt of phosphonic acid.
- Working as disease suppressor with protective & curative actions.
- Eradicates organisms causing Downy mildew and phytophthora.
- Control-40 used to develop internal resistance against Oomycetes fungi.
- It having systemic in action, ensures faster absorption.

Dose :

2.0 to 2.5 ml per Liter of water

Gives a light shine on leaves after spray.

Packing :

250 ml, 500 ml, 1 Ltr

KELP RICH Green Seaweed Extract

- It is also an extract of *Ascophyllum nodosum* seaweed shown to enhance seed emergence, root growth and shoot growth.
- Improves root development, sugar brix.
- Improves colour uniformity and shelf life.
- Increase yield by promoting plant enzymes and sugar production.

Dose :
2.0 to 2.5 ml per Liter of water

Packing :
500 ml, 1 Ltr

SHAKTI VINNER pH Balancer + Elongation

- It is an unique product for balancing the pH value.
- Gibberellic acid plays an important role in the growth of plant but the problem is the absorption of it.
- Shakti Vinner helps absorption of G.A. which speed-ups photosynthesis.
- Helps increase distance between berries. Supports uniform and balanced bunch development. Improves overall bunch size and shape.

Dose :
2.5 to 3 ml per Liter of water

Packing :
1 Ltr, 5 Ltr

COMBIDON Homobrassinolide 0.04%

- Improves flowering & better flower retention results higher yield.
- Improves the quantity by bringing complete utilization of all bio chemicals.
- It bring uniformity in fruit size, colours and ripening.
- It is a research based natural hormone Homobrassinolide of plant.
- Which significantly increase cell division resulting berry set of seedless & seeded grapes. also increase Berry size, Delay Maturity and reduce colour.

Dose : For ESS : 600 ml per acre
For Spray : 1 ml per Liter of water

Packing :
250 ml, 500 ml, 1 Ltr

Threshar Homobrassinolide 0.03%

- Enhances elongation and uniform development of grape bunches.
- Improves berry size, colour and overall fruit appearance.
- Promotes vigorous plant growth and healthy vine development.
- Helps produce premium export quality grapes with better yield.
- 100% organic, residue free product, safe for sustainable farming.

Dose :
For ESS : 600 ml per acre
For Spray : 1 ml per Liter of water

Packing :
250 ml, 500 ml, 1 Ltr

S-Stim

Oriented Bio-Stimulant

- Enhances natural shine and brightness of grape bunches.
- Improves bunch filling and uniform berry development.
- Supports increase in berry size and overall fruit quality.
- Helps vines remain healthy and productive throughout the season.
- Ideal for producing attractive, glossy grapes suitable for premium markets

Dose :
1 to 2 ml per Liter of water

Packing :
250 ml, 500 ml, 1 Ltr

POINTEX

Berry Point & Length

- It increases the level of cytokinin in the plant tissue thereby inducing profuse cell division & cell elongation of fruit crops especially Grapes, thereby increasing the length & point of the fruit.
- This product specially recommended for long indian grape varieties such as Sonaka seedless, Manik Chaman & Krishna seedless (Sharad Sonaka), SSN, R.K., Bullet where long pointed fruits are desired.

Dose :
2 to 2.5 ml per Liter of water

Packing :
500 ml, 1 Ltr

NEEMARK Plus

Repellent & Antifeedent

- Also controls other sucking pests like whitefly, aphids, thrips etc.
- Acts as an anti-feedent, repellent, oviposition inhibitor, growth suppressant.
- Insects cannot develop resistance to nimbidin.
- It is biological, non-toxic and safe for natural enemies.
- Compatible with chemical and pesticides improve the potency effect of certified organic produce.

Dose :
For Spray : 1 ml per Liter of water

Packing :
250 ml, 500 ml, 1 Ltr

MAXXFERT

Liquid Micronutrients

- Micronutrients like Manganese and Iron are crucial for chlorophyll production, fueling faster growth.
- Elements like Copper and Boron build sturdy structures, improving wind resistance.
- Healthy, well-nourished plants better fight pests, fungi, and environmental stresses.
- Helps plants absorb macronutrients (N, P, K) more effectively for balanced nutrition.
- Leads to bigger harvests, better color, taste, and nutritional value in crops.
- Supports better flower initiation, fruit setting, and overall reproductive health.

Dose :
5 Ltr per acre (Drip)

Packing :
250 ml, 500 ml, 1 Ltr

VERSATILE

Plant Growth Booster

- Helping plants to resist drought resulting in higher yields and better quality of crops produce.
- Improving uptake & Trans location of Macro & Micro Nutrients.
- Enhancing seeding vigour and root growth.
- Inducing early maturity.
- Improves Greenery in overall crops.

Dose :

2 to 3 ml per Liter of water

Packing :

250 ml, 500 ml, 1 Ltr

GENIX

Nourishes Flowering & Fruit set

- Acts as a plant energizer, promotes various vegetative growth.
- Enhance flowering and reduce flower drop.
Improve nutrient's uptake and metabolic activity.
- Helps plant recover from stress conditions and boost vitality.
- Increases yield and overall crop productivity.

Dose :

1.5 to 2 ml per Liter of water

Packing :

250 ml, 500 ml

DOWNY STAR

Fungal protector

- Effective in managing downy mildew diseases.
- Strengthens plant immunity & prevent diseases spread naturally.
- Safe for crop, soil microbes & beneficial insects.
- Leaves no harmful residues, sustainable for organic farming.
- help maintain healthy leaves and improves overall crop growth.

Dose :

For Spray : 2.5 to 3 ml per Liter of water

Packing :

250 ml, 500 ml, 1 Ltr

WISDOM

Flower Setting & Fruit Sizer

- **Wisdom** is a unique product of natural origin having multiple activities.
- Wisdom gives uniform & helthy growth
- Increase chlorophyll synthesis, generate more food for the plant.

Dose :

1 to 1.25 ml per Ltr of water

Packing :

100 ml, 250 ml

BACTERIA

SHAHTI
SULPHUR

(Sulphur 20%)
